

Insulation Fastening Plate

Firestone Item Number: W56RAC4190

DESCRIPTION:

Firestone Insulation Fastening Plates are specially designed to be used with Firestone All-Purpose, Heavy-Duty, Concrete Drive and Stainless Steel Fasteners in roofing applications for attaching insulation as required by Firestone Specifications.

METHOD OF APPLICATION:

Position insulation plates over insulation as specified by Firestone Specifications. Attach plates to roof deck using the appropriate Firestone fastener. Install plates ribbed side up with the "Firestone" identification visible.

STORAGE:

Store in unopened original containers protected from the weather.

PACKAGING:

1,000 plates per pail
48 cartons per pallet

PRECAUTIONS:

1. Do not overdrive or underdrive fastener.
2. Plates are designed to anchor roof insulation only.
3. Avoid field seams directly over insulation plates.
4. **Cannot be used with Firestone HD Plus Fasteners.**

This sheet is meant only to highlight Firestone's products and specifications. Information is subject to change without notice. Firestone takes responsibility for furnishing quality materials, which meet Firestone's published product specification. As neither Firestone itself nor its representatives practice architecture, Firestone offers no opinion on, and expressly disclaims any responsibility for the soundness of any structure on which its products may be applied. If questions arise as to the soundness of a structure, or its ability to support a planned installation properly, the Owner should obtain opinions of competent structural engineers before proceeding. Firestone accepts no liability for any structural failure or for resultant damages, and no Firestone Representative is authorized to vary this disclaimer.
